The Ecology & Environment, Inc. (E & E) Technical Assistance Team (TAT) was tasked to complete removal funded activities at the above mentioned site. The TAT submitted a draft report, but has not received any comments on the report from U.S. EPA. Due to the conclusion of Option Period 2A of the TAT contract, this TDD will be closed with the draft report and this memorandum serving as final deliverable.

Should U.S. EPA want TAT to finalize the final report, a new TDD will need to be assigned to TAT during Option Period 3A of the TAT contract (beginning October 1).
